Elicitors, diagnostics  
and beyond

4th INTERNATIONAL  
CONFERENCE  
April 7<sup>th</sup>/8<sup>th</sup>, 2017

**Scientific Leadership**  
Prof. Dr. med. M. Worm

**Venue**  
Kaiserin Friedrich-Haus  
Robert-Koch-Platz 7  
10115 Berlin

Dear friends and members,

It is my pleasure to invite you to the 4th international conference of the Network of Online Registration for Anaphylaxis (NORA e.V.).

In this year's conference we focus on venom allergy. Venom is among food the most frequent elicitors of anaphylaxis. In contrast to food, SIT is available and can be offered to our patients.

However, the management of venom allergy requires a thorough work-up and the consideration of many aspects like who should receive VIT, how long ect.

Again we will to have clinical case presentations from our centers for a discussion among our members.

I am looking forward to see you here again in Berlin. Hopefully the meeting is as interactive and fruitful as before and will further build the basis for an excellent continuation of our successful network.

Kind regards

*Univ.-Prof. Dr. med. M. Worm*
